SENIOR SCHOLARS ANNUAL

2012

A Compendium of Publications, Honours, Awards, Invited Lectures, Teaching Activities and Other Significant Accomplishments of Retired Faculty and Librarians of the University of Toronto

Published jointly by the Academic Retiree Centre,
Senior College and RALUT, University of Toronto

Formerly entitled *RALUT Publications and Honours*

This compilation presents a sample of the ongoing scholarly activities of retired faculty and librarians at the University of Toronto. Information was collected in early 2013 by the Academic Retiree Centre for manuscript preparation under the guidance of Professor Cornelia Baines. Items are in alphabetical order by surname, and date from January 1, 2012 to December 31, 2012. The variety of citation styles reflects standard practice for each discipline. The document will remain available on the website of the Academic Retiree Centre at <http://www.faculty.utoronto.ca/arc>.

A Call for Submissions for the 2013 *Senior Scholars Annual* is expected to be issued early in 2014 for items dating January 1 to December 31, 2013. Notice will be provided to the Academic Retiree Centre, Senior College, and RALUT for distribution. All contributions from University of Toronto retired faculty and librarians are welcome.

- "Combining Dependent Likelihood Functions," University College, Dept. of Statistics, London, UK, November 29, 2012.
- "Combining Dependent Likelihoods: Some Thoughts on Composite Likelihood," University of Padova, Dept. of Statistics, Padova, Italy, September 24, 2012.
- "Priors and Inference: A Differential View," University of Oxford, Dept Statistics, Oxford, UK, November 8, 2012.
- "The Role of Bias in Statistics," University of Western Ontario, Dept. of Statistical and Actuarial Sciences, London, Ontario, April 12, 2012.

Awards and Honours

- Officer of the Order of Canada.

Teaching Activities

- Xin Tong (co-supervised), PhD 2012 ORFE, Princeton University.
- Wei Lin (co-supervised), PhD candidate 2012, final year, Dept. of Statistical Sciences, University of Toronto.
- "Advances in Likelihood Theory," STA4412HS 2012, Dept. of Statistical Sciences, University of Toronto, spring term 2012.

Significant Accomplishments

- Saw Swee Hock Visiting Professor, Univ. Hong Kong, Dept of Statistics. Awarded October 4, 2012; visit as arranged.

- Resolution of the Bayesian frequency controversy: the following papers developed in 2012 and now in revision after extensive reviews resolve a two hundred year controversy concerning the Bayes and the frequency theories of statistical inference in regular statistical models. (1) Fraser, D.A.S. (2012) Statistical inference for scalar and vector parameters: How p-values are determined by continuity (2) Fraser, D.A.S. (2012) The differential prior gives second order inference for scalar and vector parameters (3) Fraser, D.A.S. (2012) Why does statistics have two theories of inference?
- Invited paper for the Committee of Presidents of Statistical Societies COPSS 50th Anniversary Book Project.

FRIEDLAND, JUDITH

Invited Lectures:

- “Through Mind and Hand to Health,” William Morris Society of Canada (public lecture), Toronto, April 16, 2012.
- “Lessons from the Past: Shaping the Future of Occupational Therapy,” with E. Dutil and F. Ferland, Canadian Association of Occupational Therapists Annual Conference, Quebec City, June 7, 2012.
